A Look At The Topic

Learning how to deliver ethical, evidence-based social work practice is imperative for assisting clients who identify as LGBTQIAP. Ethical practices approaches allow practitioners to foster growth in a manner that is safe for these vulnerable clients who are too familiar with oppression, discrimination, violence, suicide, isolation, and rejection.

Shannon Brown, LCSW, will help increase your understanding of ethical clinical practices regarding therapeutic approaches, controversial versus ethically-appropriate terminology, and ethically-appropriate clinical recommendations and referrals.

Educational Objectives

- Identify real ethical dilemmas social workers have experienced with clients.
- Identify ways to effectively navigate ethical dilemmas when they arise.
- Management of ethical dilemmas through professional resources.

About the Presenter

Shannon Brown, LCSW, is the founder of Psychotherapy and Forensic Services, LLC, and the founder of the Foothills LGBT Community Center in Maryville, Tennessee. Brown completed her undergraduate degree in Psychology from UT, Knoxville, and her Master of Science in Social Administration from Case Western Reserve University in Cleveland, Ohio. In May 2017 Case Western recognized her with the Irene Sogg Gross Humanitarian Service Award.
